Crime Victim Assistance Board

The Attorney General’s Crime Victim Assistance Board was established in Iowa Code section 915.82 in 1989. The Attorney General appoints Board Members to three-year terms of service. The Attorney General appoints a member to serve as Board Chair at the beginning of each state fiscal year. The Board is a governing Board for the programs of the Crime Victim Assistance Division; it gives guidance to the Division Director and adopts Administrative Rules that govern the programs of the Division. The Board also conducts a hearing and renders a decision on any appeal of a Division decision.

Administrative Rules require that the Board meet a minimum of once in each quarter in the state’s fiscal year. Iowa Code section 915.80 requires that Board members include two crime victim survivors, one victim service provider, a licensed social worker or psychologist, two law enforcement officers, a prosecutor, a defense attorney, a medical provider, and an older Iowan. The list of board members below includes the constituency they represent, their County of residence, and the year that their current term ends.

Registrant Watch

Members of the public are offered a means to protect themselves from individuals who have committed an offense requiring enrollment to the Sex Offender Registry. Individuals can register to receive information via email, phone call and text about the change in location of a specific sex offender or notable changes in appearance of a specific offender. Watches can be set so an individual can be notified if a registered sex offender moves into a city, county, or zip code within five miles of a specific address or “area”.

Safe at Home

The Office of the Iowa Secretary of State unveiled the Safe at Home (SAH), address confidentiality program on January 1, 2016. This program helps victims of crime improve their lives by using a substitute address, so a physical address does not appear in public records, thereby helping keep the victim's whereabouts safe. THE SAH program also allows for repackaging and forwarding of a participant's mail to ensure safe and secure delivery. Participants can also register to vote through this program, without having to be listed on the public voter registration list. Eligible participants include survivors of sexual assault, domestic violence, trafficking, stalking and other violent crimes. CVAD
partnered with the Secretary of State’s Office to provide financial support for the maintenance of the secure database used to house victim information, as well as to aid in the costs necessary to repackage and resend a participant’s mail. CVAD also conducts statewide outreach and education to ensure victims are aware of the existence of this program.

**Training, Advocacy and Outreach**

The Crime Victim Assistance Division conducts regular training, advocacy and outreach to agencies, community groups and members of the public. Training topics include basic information on the programs administered by the CVAD, information on victim service programs and best practices for serving victims of crime. In addition, CVAD staff regularly attend and participate in partnership meetings with other statewide agencies and victim service programs.

In SFY20, CVAD staff conducted 2 trainings to educate funded programs on the new online grant manual and 2 regional trainings with subrecipients to discuss federal grant programs funded by CVAD. Approximately 174 individuals attended the trainings. Staff also conducted trainings and outreach presentations to community organizations and members of the public, providing information on our agency and programs to approximately 1,548 individuals throughout the state of Iowa. Additionally, staff conducted trainings that reached more than 697 victim service, medical, legal and other professionals.

CVAD has a trained victim advocate who provides information, support and resources to individuals who contact CVAD. In SFY20, the CVAD advocate provided services to 443 individuals. Services provided included assistance completing the crime victim compensation application, criminal justice support and advocacy, housing advocacy and economic advocacy. The CVAD advocate also provided more than 486 referrals to victim service, community, legal and other agencies.

In October 2020, CVAD hosted the biennial Victim Justice Symposium (VJS). Due to safety concerns around the pandemic, the VJS was held virtually via Zoom, October 4-8th. Over 250 individuals registered for and attended the conference. Of those who attended, 58% identified it was their first time attending the symposium. The majority of the attendees were victim service professionals; however, other attendees included professionals from law enforcement, legal services, social work, medical and education fields. The theme of the symposium was “Empower. Inspire. Motivate.” Some of the sessions offered included: “When Advocates Need Advocates: Power & Control within Anti-Violence Organizations”, “Understanding and Assisting with Recovery from Military Sexual Trauma“, “Overcoming Gender Bias in the Investigation and Prosecution of Sexual Assault“, and “Understand Grooming, Understand the Silence”. Feedback from the symposium was largely positive given that it was not able to be held in person. Aside from a few technical glitches with Zoom, the symposium was by and large a success.
Crime Victim Compensation Program

The Crime Victim Compensation Program (CVC) pays certain out-of-pocket expenses for victims physically or emotionally injured by crime. All funds for the program come from the Compensation Fund, which consists of fines and penalties paid by convicted criminals. The program does not compensate for damaged or stolen property. Eligible crime victims can be reimbursed for expenses they pay and payments can be made directly to a service provider on behalf of the crime victim for crime-related expenses.

Restitution

Iowa Code provides that restitution shall be order for payments issued by the Crime Victim Compensation Program to the extent that the offender is reasonably able to pay. The program’s Restitution Coordinator will complete the following activities to collect restitution on behalf of the program:

- Review all approved compensation applications to determine if an offender has been identified, and if so:
  - If the criminal case is still pending, the Restitution Coordinator will send a statement of pecuniary damages to the prosecuting attorney; or
  - If the defendant has already been convicted of the crime, but is awaiting sentencing the restitution coordinator will send a statement of pecuniary damages and submit it to the prosecuting attorney; or
  - If the defendant has been sentenced the Restitution Coordinator shall send a statement of pecuniary damages, motion to amend, and restitution order to the prosecuting attorney.
- Monitor each offender’s restitution plan and payment history.
- Initiate collection actions, including but not limited to formal payment agreements, income tax offsets, wage garnishments, and wage assignments if the offender does not comply with the established plan of payment.
Sexual Abuse Examination Payment Program

The Iowa Sexual Abuse Examination Payment Program (SAE) was established in 1979 to pay the cost of a forensic examination of the victim for sexual abuse crimes that occur in Iowa. All funds for the program come from the Compensation Fund, which consists entirely of fines and penalties paid by convicted criminals.

Iowa Code section 915.41 states:

The cost of a medical examination for the purpose of gathering evidence and the cost of treatment for the purpose of preventing venereal disease shall be paid from the fund established in section 915.94 [Victim Compensation Fund].

The purpose of a victim’s forensic medical examination after sexual abuse is to collect evidence and ensure the victim’s well-being. In Iowa, any person who states they were the victim of a sexual assault can receive the exam whether or not they choose to report the crime. Victims may seek forensic and medical treatment immediately and take additional time to consider whether to report to law enforcement and participate in the criminal justice system.

The SAE Program pays the cost of the examination regardless of whether or not the victim reports the crime to law enforcement. A victim is never responsible for payment for a sexual abuse forensic examination or for medications required due to the assault. Medical providers and facilities submit the bill for the sexual abuse examination directly to the SAE Program. If the victim is billed by a medical provider for the examination, the SAE Program will reimburse that victim.

The program will pay:

- Up to $300 for the examining room and facility.
- Up to $200 for the examiners fee (Sexual Abuse Nurse Examiner or Physician).
- 75% of laboratory and medication costs related to the sexual abuse exam and for prevention of sexually transmitted diseases (STD) for the crime victim.
- Follow up appointments for the crime at the same rates as the initial examination.

Victim Services Support Program

CVAD’s Victim Services Support Program (VSS) provides grant funding and support to victim service organizations throughout Iowa. VSS focuses on (1) effective stewardship of state and federal funds for victim services, law enforcement, prosecution and courts administration and (2) providing technical assistance to crime victim programs on program development, fiscal management and services. Because of CVAD’s diverse funding, we are able to fund nonprofit and governmental agencies to provide a variety of services to crime victims and the local community. Grant funds support organizations and projects which connect crime victims to advocacy services, improve investigations, increase prosecution, and improve medical and courts response to Iowa victims.

Fund Sources

Below is a summary of the funding sources CVAD and the VSS team administers.

Iowa Domestic Abuse (DA) and Iowa Sexual Abuse (SA) funds are appropriated by the Iowa Legislature through general funds. 100% of these funds are distributed to organizations which provide services to domestic abuse and sexual abuse/assault victims through both local and statewide outreach including victim-based shelters.

Federal Family Violence Prevention and Services Act (FVPSA) funds are awarded to Iowa by the U.S. Department of Health and Human Services, Office of Administration for Children and Families, Office of Community Services. The U.S. Congress appropriates the funds annually. Each state receives a formula grant based on the state’s population. CVAD retains 10% of the funds for administration, with the remaining 90% distributed to domestic abuse organizations and victim-based shelters. Seventy percent of FVPSA funds must be allocated to family violence shelters. FVPSA requires recipients to provide a 25% match.

Federal Sexual Abuse Services Program (SASP) funds are awarded to Iowa by the U.S. Department of Justice, Office on Violence Against Women. The U.S. Congress appropriates the funds annually. Each state receives a base amount and additional funds based on a formula using the state’s population. CVAD retains 5% of the funds for administration. The remaining 95% is distributed to non-profit sexual abuse organizations. Recipients of SASP funds are not required to provide match.

Federal STOP Violence Against Women Act (STOP) funds are awarded to Iowa by the U.S. Department of Justice, Office on Violence Against Women. The U.S. Congress appropriates the funds annually. Each state receives a base amount of $600,000 and additional funds based on a formula using the state’s population. CVAD retains 10% for administration. The remaining 90% is distributed to organizations as follows: 5% to courts, 25% to law enforcement, 25% to prosecution, 30% to victim services and 15% at the state administrating agency’s discretion within the focus and purpose of the funds. STOP funds require recipients to provide a one-third match.
**Federal Victims of Crime Act Assistance (VOCA)** funds are awarded to Iowa by the U.S. Department of Justice, Office for Victims of Crime. The funds come from the federal Crime Victims Fund, which consists entirely of fines and penalties paid by convicted federal criminals and collected by U.S. Attorney’s Offices. Each state receives a base amount of $500,000, and additional funds based on a formula using the state’s population. CVAD retains 5% of the funds for administration, with the remaining 95% distributed to victim services organizations. VOCA requires recipients to provide 25% match.

**Service Model Summary**

In State Fiscal Year 2013, CVAD and the VSS Program along with collaborative partners such as the Iowa Coalition Against Domestic Violence, Iowa Coalition Against Sexual Assault and other experts in the victim service field created a Strategic Funding and Services plan for victim services. The goal of the plan was to change how to distribute available funding in a manner that most effectively provides quality services to all crime victims across the state.

The State of Iowa now uses the housing first model, which is focused on accessing and stabilizing safe housing as a first priority. After safe housing is established the victim/survivor is surrounded with support services, advocacy and other assistance identified by the victim and advocate for the victim to remain safe and violence-free. These services may include other items such as assistance with a protective order, financial housing assistance, transportation, car repairs, training or other items that enhance stabilization, safety and self-sufficiency. The service model incorporates different forms of housing such as a 24/7 emergency shelter, safe homes, hotel/motel, financial housing assistance, transitional housing and diverting victims from shelter and keeping them victim in their homes.

The service model implemented a regionalization of services that divided Iowa’s services for domestic abuse and sexual abuse victims into six regions as shown in the map on the next page. CVAD determined available funds could support one or two organizations in each region specific to each of the following types of services: domestic abuse comprehensive (DAC), sexual abuse comprehensive program (SAC), and victim-based shelter programs (SH). This focus increases the number of sexual assault advocates and more equitably distributes the resources for victims of both sexual assault and domestic violence.
The plan incorporates mobile advocacy in Iowa’s rural areas of the state in order to meet victims in their communities rather than expecting victims to travel to another area of the state for services. It is critical for all cities and towns in Iowa to have advocacy and outreach coverage. This plan means services are truly statewide.

During this timeframe, CVAD restructured survivors of homicide programming and other violent crime services as well. The majority of Iowa’s homicide investigations are conducted by the Department of Criminal Investigations (DCI) through the Iowa Department of Public Safety. In order to create the most successful programming, funding for survivors of homicide programs was distributed based on the DCI Zones.
Performance Statistics and Information

**Beginning October 1, 2020, the grant year shift from July to June award period to October to September award period.**

The grant year 2019-2020 was the sixth year of implementing the service model. The pie chart below breaks down the number of victims served by CVAD's victim services funded organizations into three categories: domestic abuse (DA), sexual abuse/assault (SA) and other violent crime victims.

From October 1, 2019 to September 30, 2020 victim service programs served **55,902 victims.**

The pie chart shows:
- **30,174**, Domestic Abuse
- **15,304**, Other Violent Crime
- **10,424**, Sexual Assault
The numbers provided above include all types of victim services agencies funded by CVAD including Victim Witness Coordinators through local prosecutor offices and survivors of homicide programs.

Table 1 on the previous page provides a breakdown of the victims served by type of victimization in the most recent grant year. In comparing last year SFY19 to FFY20, there was an overall decrease of approximately 31.5% in the number of crime victims served (81,646:55,902); however, from SFY14 to the current there was an increase of 76% (31,687:55,902) of victims served. It is important to note, however, in SFY19 CVAD shifted from funding projects on the state fiscal year (July-June) to funding projects based on the federal fiscal year (Oct-Sept). The SFY19 statistics were comprised of 15 months of services, vs. the typical 12 months. This unintentionally skews the decrease in victims served from SFY19-FFY20. One of the most important comparisons is the overall victims served pre-restructure (SFY13) to how services are now structured and delivered now. There was an approximate increase of 99% in the number of victims served when comparing the old model of services (SFY13) to the seventh year of the new model of services (28,053: 55,902) which is attributed to both the restructure and the increase in victim services funding.

*The numbers provided for the SFY20 annual report are for 12-months for the period October 1, 2019 to September 30, 2020 as opposed to SFY19 when CVAD’s grant year changed from a July 1 start date to an October 1 start date. The change resulted in grantees receiving a three-month extension and therefore serving more crime victims. The number of victims served in SFY20 are therefore less because of the change and because of the impact of the COVID-19 pandemic.*

**Shelter Services and Crisis Calls**

In the new service model, organizations offer shelter to victims in various ways: keeping victims in their homes (diversion from shelter), traditional shelter buildings, safe homes and hotels/motels. Assessments are an important tool advocates use to assist victims in becoming and remaining violence-free and self-sufficient. In this service model advocates are conducting both housing stability and lethality assessments when assisting victims.

Victim service advocates conducted **8,744 housing assessments** in the most recent grant year, which is a 23% decrease from the previous year (11,406:8,744); however, this is due to the last grant year being 15 months long. Overall, housing assessments have increased; 8,744 is an increase of 142% from SFY14 (3,602: 8,744). When conducting these assessments, advocates assist crime victims through advocacy, problem-solving and financial assistance which are effective ways to stabilize survivors, to maintain safety and to increase self-sufficiency. Advocates were able to divert 4,843 victims (women, men and children) from shelter in the past grant year by providing rent and utility assistance, other forms of financial assistance and problem solving and advocacy. The following table provides a 3-year breakdown of the shelter diversion information.

The table below provides a breakdown of the number of victims sheltered by type of victimization and number of nights of safety/shelter provided and compares the previous two years data to the most recent grant year. The table illustrates there was a 19% increase in the number of victims receiving traditional shelter when comparing 2018 to 2020 (4,909:5,882), however, comparative data for 2019 is not possible as a new data collection system was implemented in funded programs and the data point was set to count “all victims” instead of “all unduplicated victims” resulting in an overcounting. There was a decrease and an increase in the number of victims receiving non-traditional shelter through safe homes and hotels/motels. Specifically, an increase of approximately 30% in sheltering victims in hotels and motels from 2019-2020 (1113:1460); and a decrease of 9% in sheltering victims in safe homes from 2019 to 2020 (118:107). Victim services organizations provided fewer nights in traditional shelter in 2020 compared to 2019, due to COVID-19.

* Due to COVID-19, many shelters opted to use hotels and motels instead of traditional shelters. CARES ACT funding helped pay for these costs. **A new data collection system was implemented in SFY19 - this figure is a "duplicated" number of total victims served which is why it is so much higher than in prior years.

### Victim Services Programs

Victim Services Programs track the number of people turned away from shelter. In Grant Year 2019-2020, grantees reported they turned away 1,867 people as summarized in the chart below.

Advocates assist victims in many ways, including safety planning, individual counseling, group counseling, civil and criminal advocacy, personal advocacy, housing/economic advocacy, etc. These services are conducted in-person and through crisis calls and chat or text lines. In Grant Year 2019-2020 advocates reported they assisted victims through 232,918 crisis calls, chats and texts, which is an increase of more than 100% from the 109,294 crisis calls answered the previous year. In addition, grantees reported they spent approximately 68,980 service hours on crisis calls, chats and texts.

**Community Support and Awareness**

Organizations rely on community volunteers to help support victims by providing direct services and advocacy throughout Iowa. Some of these direct service activities include providing support groups to adults, teens and children, responding to emergencies at hospitals and law enforcement agencies, providing court accompaniment and transporting victims to shelter and appointments. In addition, many community volunteers also donate their time indirectly to support victims and the programs providing those services. Examples of indirect volunteering vary but could include mowing the shelter lawn, conducting presentations, organizing donations, conducting fundraising and awareness activities.

In Grant Year 2019-2020, 4,937 Iowans volunteered slightly more than 125,144 to victim services programs in Iowa. This is equivalent to approximately 60 full-time staff donating their time. Volunteers gave 62,653 hours providing direct services to crime victims and 62,490 hours providing indirect services.

The number of volunteers decreased by 55% from the previous year (10,889:4,937). Due to COVID-19 most grantees discontinued the use of volunteers for more than 6 months of this grant year. However, when comparing pre-restructure in SFY13 (3,550) to the current post-restructure grant year, there has been an increase of 1,387 volunteers or 39% (3,550: 4,937). Pre-restructure volunteers donated 151,414 hours of their time while the past year volunteers were able to provide 125,144 hours of service.

CVAD grant funded organizations provide outreach to the community through the media and through presentations. VSS funded grantees had 19,620 media contacts with newspapers, television and radio through articles, interviews and advertisements. This is an increase from the 9,906 media contacts in the previous year. The Internet is an important resource for organizations to disseminate information or to conduct community outreach. Funded agencies reported 512,643 hits on their websites or other electronic options, such as Facebook or Twitter.

Presentations are an important way to reach victims and to interact with other professionals. In the most recent grant year, CVAD’s grantees reported they conducted 3,307 different presentations (8,474 the previous year), reaching 105,072 people about their services for victims. This is a decrease from 332,429 the previous year. This is due to both COVID-19 this year and a 15-month grant period last year.
Professional Training and Collaborations

Training and collaborating with other professionals are ways organizations improve the response to crime victims. By improving collaborative relationships with other criminal justice and local community agencies, victims’ rights are ensured, and professionals have a clearer understanding of each agency’s role.

In the most recent grant year, CVAD funded organizations conducted 1,500 training sessions to 36,573 people. This is nearly 50% less due to COVID-19 and a shorter grant year. Since SFY14, VSS-funded programs have conducted 13,921 training sessions to 279,508 professionals.

Collaboration: Collaborating with other agencies is an important activity victim advocacy. The following chart provides a synopsis of collaboration from the past three state fiscal years.

Agencies reported on their meetings and referrals with the following types of agencies: courts, correction officials, DAC programs, governmental entities, healthcare providers, law enforcement, prosecution/victim witness coordinators, educational entities, SAC programs, shelter programs, therapist/counselors.

Referrals: In the most recent grant year, victim service programs received 34,585 referrals. The majority of referrals were from courts, DAC programs, law enforcement, prosecution/victim witness coordinators and governmental agencies. Grant funded organizations also made 2,743 referrals to other organizations.

Funding Application and Review Process

In 2018 and 2019, CVAD’s Victim Services Program released their three-year funding applications for victim services applicants and criminal justice programs. In addition, the CVAD changed their grant year to match the federal fiscal year. The three-year grant cycle began on October 1, 2019, and will end September 30, 2022, with each year in the grant cycle being funded separately. A new competitive grant cycle will begin October 1, 2022.
This current grant year is a non-competitive grant cycle. Except for one law enforcement applicant, who voluntarily relinquished their year 2 and year 3 grants, all year one grantees were level funded in year 2. Because this is a non-competitive year, none of the grants required an external review.

**Bonuses**

CVAD’s victim services program does not allow federal or state funds to be used to reimburse bonuses to any CVAD victim services grantee. This includes non-profit and nongovernmental agencies.

**Out-of-State Conferences/Training**

The table below shows out-of-state travel for CVAD victim services staff from July 1, 2019 to November 2019. CVAD sent 10 different staff to 9 different mandatory federal conferences required by the respective federal funding agency. Travel for these events was paid through federal administrative funds.

Overtime

Iowa’s victim service advocates respond 24 hours a day, 7 days a week to victims at hospitals, law enforcement or other safe locations. Victim Service funds support eight emergency shelters in Iowa’s six regions. The victim service organizations who paid overtime did so to cover shelter, hotline and emergency response services due to staff training, vacancies, sick leave, vacation and staffing shortages. Law enforcement used overtime to conduct follow-up investigations, victim safety checks, attend training and conduct arrests on violence against women cases. It is generally not cost effective for Iowa’s rural law enforcement agencies to fund a full-time law enforcement officer/investigator with Iowa’s STOP Violence Against Women (STOP) funds. A requirement of STOP funding is to fund law enforcement agencies to improve the response to domestic abuse, dating violence, sexual assault and stalking victims. See Appendix A for a map of the shelters funded with CVAD victim service funding.

The total amount of claims paid in grant year 2019-2020 is $25,924,490.59. Of this amount CVAD paid $199,287.05 in overtime, (0.07%).

Iowa VINE

Iowa Victim Information and Notification Every Day (Iowa VINE) is a free and anonymous telephone service that provides victims of crime with two important services: information and notification. Iowa VINE is provided by the Iowa Attorney General’s Crime Victim Assistance Division (CVAD), Iowa Department of Justice, initially implemented through a grant awarded by the Federal Bureau of Justice Assistance.

Iowa VINE monitors the custody status of offenders in all of Iowa’s county jails and the Iowa Department of Corrections facilities. The information is stored at the VINE Communications Center in Louisville, KY and is available 24 hours a day, 7 days a week. The Iowa VINE services are available in English, Spanish, Bosnian and Somali. Individuals can access the notification system via telephone at 888-742-8463, at www.vinelink.com, or the VINEMobile smartphone app.

The information is open to anyone in the community with an interest in an offender held in custody. To search for an offender, the first and last name or offender identification number is needed. A secondary search option is the offender’s birthdate or age. Registrants can access the offender’s name, identification number, current custody status, location of offender, facility contact information, scheduled release date (if available), and information about crime victim services in the registrant’s area.

The Iowa VINE system began in 2006 with just a few counties. Today, all 99 counties participate along with the Iowa Department of Corrections (9 prisons). Of those 99 counties, 90 county jails and the Iowa Department of Corrections’ facilities have photographs of the offender available online.

Registrants can choose to receive notifications via telephone, text and/or email. If the registrant chooses telephone, a four digit PIN number must be entered upon registration. The following are the automated call patterns of the system:

**Normal**: Calls will be made every 30 minutes for 24 hours or until the correct PIN is entered to confirm and stop the notification calls. If an answering machine or a person answers a call and the correct PIN is not entered, then calls will be made every 2 hours for the remainder of the 24-hour period.

**Normal with Delay**: Calls will be made every 30 minutes for 24 hours or until the correct PIN is entered to confirm and stop the notification calls. If an answering machine or a person answers a call and the correct PIN is not entered, then calls will be made every 2 hours for the remainder of the 24-hour period. *Transfer notification calls will be delayed for 4 hours from the time the record is received by VINE. Death notification calls will be delayed for 24 hours from the time the record is received by VINE.*

**Non-Emergency with Delay**: Calls will be made every 30 minutes between 7:00 am – 10:00 pm for 24 hours or until the call is confirmed. Calls are confirmed and stopped by entering your PIN. If an answering machine or a person answers a call and the correct PIN is not entered, calls will continue every 2 hours for 24 hours between 7:00 am – 10:00 pm.
Over the past few years, IowaVINE has consistently seen an increase in use both for its search functions and its registration and notification capabilities. There has been a consistent trend to electronic notification and specifically an increase in the use of text and email notifications. The following tables show a five-year summary from SFY 15 to SFY20.

**SFY16-SFY20 VINE Phone, TTY, Email, and New Registrations**
Iowa Identity Theft Passport Program

The Iowa Identity Theft Passport Program was implemented on July 1, 2009. Iowans who are victims of identity theft after that date and who have reported the crime to the appropriate law enforcement agency may submit an application for an Identity Theft Passport.

Iowa law defines an identity theft victim as someone whose “identification information” is both stolen and fraudulently used or attempted to be used to obtain credit, property, or services without the authorization of the victim. An individual’s identification information includes their name, address, date of birth, telephone number, driver’s license number, non-operator’s identification number, social security number, place of employment, employee identification number, parent’s legal surname prior to marriage, demand deposit account number, savings or checking account number, or credit card number.

An Identity Theft Passport will not be issued to a person in the case of an identity mistake or because the person has lost documents containing identifying information.

When a victim reports identity theft to law enforcement, they can apply for an Identity Theft Passport. The law enforcement agency will submit the completed application, law enforcement verification form, and other necessary documents to the Identity Theft Passport Program. Once all necessary information is obtained, eligibility for an Identity Theft Passport will be determined. An application will generally be processed within 30 days of receipt by the program.

A law enforcement agency, creditor, or consumer report agency may consider the Identity Theft Passport as they determine their course of investigation and action. The information may help prevent the victim’s arrest or detention for an offense committed by someone using their identity. The information may also help a creditor who is trying to determine if fraudulent charges were made against the victim’s accounts or if accounts were opened using the victim’s identity. And the Identity Theft Passport may be given to a consumer-reporting agency to show that there is an identity dispute on the victim’s consumer record. The consumer-reporting agency will include the Identity Theft Passport information in future credit reports related to the crime victim.

An identity theft passport is valid for five (5) years from the date of issuance or renewal. A person can apply to renew an Identity Theft Passport within 30 calendar days after its expiration.

A person issued an Identity Theft Passport must notify the Identity Theft Passport Program in writing of a change in their name or address. The holder of an Identity Theft Passport must immediately notify the program and the investigating law enforcement agency if the document is lost or stolen.

Iowa Code Chapter 22 requires that an application for an Identity Theft Passport is confidential and is not a public record subject to disclosure. Any person other than the holder of the Identity Theft Passport will be directed to the victim or the law enforcement agency that was the source of the information.
The Iowa Legislature changed the eligibility requirements of the legislation around the Identity Theft Passport program. Before July 1, 2015 (SFY16), proof that the crime happened in Iowa was required. New legislative language clarified that the victim must only reside in Iowa at the time of the crime or the crime must have happened in Iowa. This change has allowed more victims to receive Identity Theft Passports.

In SFY20, the program saw a slight increase in applications. CVAD staff continue to raise awareness about the program. As part of the Iowa Identity Theft Victim Assistance Coalition (IDTVAC), CVAD staff share information about the program with coalition members to increase awareness of the resource and how it works. The program is listed as a resource on an informational sheet that all members from the organization distribute to the populations they serve. CVAD staff have developed relationships with the Iowa DOT’s Bureau of Investigation & Identity Protection, Consumer Protection Division, Polk County Attorney’s Office, Iowa Legal Aid, and various law enforcement agencies around the state regarding the program. CVAD staff utilize social media and display our brochures at tabling events to raise awareness of the program and reach more individuals.

The chart below shows the Identity Theft Passport Program usage since its launch in SFY2014.

Applications can be accessed on the website at https://www.iowaattorneygeneral.gov/for-crime-victims/identity-theft-passport-program/.
Iowa Protective Order Notification (IowaPON)

The Iowa Protective Order Notification (IowaPON) system was launched May 1, 2012 as a service for domestic violence, sexual assault and elder abuse protective order petitioners and others deemed to be at-risk by the abuser (respondent), advocates, and officers. The service was designed to provide information on the status of the protective order or no-contact order. Additionally, the service was intended to provide the opportunity to register for notification upon service of a protective order or no contact order and 30 days prior to its expiration.

Starting in December 2018, CVAD launched a collaborative review of the IowaPON system with partners including the Department of Human Rights-Division of Criminal & Juvenile Justice Planning (CJJP), Iowa Judicial Branch, Iowa Department of Public Safety and the vendors responsible for maintaining the IowaPON (Appriss) and Iowa courts online (URL Integration) systems.

This review occurred after concerns were raised the IowaPON system was not properly reflecting protective order and no contact order service information and expiration dates. Upon a full and comprehensive review, CVAD made the difficult decision to suspend the IowaPON system in SFY19. The review found the system was not properly reflecting returns of service across the state on a portion of protective orders and no contact orders. This was primarily determined to be a business practice issue resulting from a wide variance in how and when local law enforcement agencies, sheriff’s offices and court clerks enter return of service information.

At the time the system was suspended, all registered individuals were notified the system was in outage and that they should take appropriate steps to ensure they would receive pertinent information on the protective order or no contact order, directly from the local clerk of court or Sheriff’s office.
Registrant Watch Program

The Registrant Watch Program is Iowa’s automated notification system for tracking of sex offenders. Registrant Watch was developed by the Iowa Division of Criminal Investigation’s Department of Public Safety’s Sex Offender Registry Program and CVAD partnered in SFY12 to expand the notification options (phone calls) offered by the system. The Sex Offender Registry Program maintains the data received from the counties regarding sex offender updates.

Registrant Watch assists individuals who register for notification of sex offender updates in their neighborhoods, cities, or states. Registered sex offenders fall along a tier system in the State of Iowa. Tier one offenders must update registration once per year. Tier two offenders must update their status twice per year. Tier three offenders must update their information three times per year.

Registrant Watch provides 24-hour access to sex offender registration information online while having the ability to register for a sex offender’s location and changes in appearance of the individual. The system then provides the registrant with email or phone messages with a change in the location or identifying characteristics of that sex offender. Phone calls can come at any time of the day. If there is no answer or the call goes to an answering machine, the system will call back once for a total of two calls. A short message will be left on the answering machine. This service is confidential and free of charge.

Human Trafficking Initiatives

The Iowa Attorney General’s Office is dedicated to protecting trafficking victims and preventing future trafficking within the state of Iowa. As a department, we work to combat the crime of human trafficking by providing programming that increases understanding of human trafficking and its victims, by funding local crime victim service organizations that provide direct services to trafficking survivors and by assisting the criminal justice system in holding traffickers responsible for the effects of their actions.

Human Trafficking Direct Services

Under the terms of Victims of Crime Act (VOCA) funding, all victim service providers, regardless of specialization, must provide assistance to any victim of a violent crime who reaches out to them for assistance. Victim services providers may then determine an appropriate referral for ongoing services if the needs of the victim fall outside of the capacity of the program. While victim service agencies across the state continue to provide services to human trafficking survivors, CVAD was able to provide targeted funding to four programs to deliver human trafficking-specific victim services: Catholic Charities (Council Bluffs), Chains Interrupted (Cedar Rapids), Friends of the Family (Waterloo), and Braking Traffik (Davenport).

Statewide Training and Collaboration

The Iowa Attorney General’s office collaborates with the Iowa Department of Public Safety Office to Combat Human Trafficking, the Iowa Department of Public Health, and the Iowa Law Enforcement Academy as well as many other local and statewide partners, to train professionals and community members on the dynamics of human trafficking. In SFY20, CVAD’s Human Trafficking Coordinator provided 6 trainings and 11 outreach events, reaching 736 people. These numbers were a significant decline from past SFY due to pandemic-related travel restrictions. While virtual training/outreach efforts continue, many opportunities that arose during this time were canceled or postponed.
Sexual Assault Kit Initiative

The Sexual Assault Kit Initiative (SAKI) continued during SFY20. In February 2020 the Bureau of Justice Assistance (BJA) granted a no-cost extension through September 30, 2020 allowing project activities to continue with the support of grant funds. Bode Forensics analyzed 438 kits during SFY20. 292 kits screened positive for foreign DNA, and 146 screened negative. 255 DNA profiles were entered into the Combined DNA Index System (CODIS). 165 hits to DNA profiles in CODIS occurred.

CVAD’s partnership with the Department of Public Safety Division of Intelligence (DOI) continued. Utilizing grant funds, the DOI provided jurisdictional law enforcement agencies investigative information such as criminal history and last known contact information for the individual whose DNA matched the kit evidence. This information gives local law enforcement a head start in notifying the victim of the new information from the case and re-investigating through the DNA match. 165 cases with a DNA match that occurred in SFY20 were forwarded to law enforcement for follow up. Law enforcement made contact with 20 survivors in SAKI-related cases in SFY20. Each of the survivors contacted did not wish to re-engage with an investigation. 113 total cases with a DNA match remained open as of December 31, 2020.

CVAD and staff from the Iowa Law Enforcement Academy (ILEA) in consultation with experienced sexual assault investigators, developed new course material for ILEA’s basic academy classes that began being taught in January 2020. The courses involve a basic class on trauma and with trauma-informed victim interviewing techniques. These classes are now embedded ILEA’s basic academy course.

During SFY20, the SAKI program conducted several training and outreach activities throughout the state. More than 700 professionals involved in sexual assault response received training. These trainings are designed to help law enforcement officers and others to respond not only to sexual assault, but all violent crimes in which trauma effects the victim. However, due to the coronavirus pandemic, a number of trainings had to be postponed. Because these trainings and other SAKI activities were impacted by the pandemic, a second no-cost extension was requested in August 2020. BJA approved the request, allowing grant funds to support SAKI activities through September 30, 2021. Trainings were made available using webinars during the pandemic.

CVAD began development and implementation of the “Track-Kit” system in SFY20. A competitive bidding process led to a contract with STACS DNA to provide “Track-Kit” to the state of Iowa. The system tracks the status and movement of sex assault kits from the point of distribution to a medical facility, to use in an evidence collection exam, to law enforcement possession, to the DCI crime lab for analysis. Survivors have the ability to receive text and email notifications alerting them when the status changes. STACS and CVAD staff planned a regionally-based implementation schedule for spring and early summer of 2020 that would have resulted in the system being in place on a statewide level in July. The implementation was designed to involve a combination of in-person and webinar trainings. Due to the pandemic, the implementation was put on hold for a period. After re-designing the process, CVAD and STACS began the implementation in late July. By the end of October, “Track-Kit” was in use in about 75% of medical facilities and law enforcement agencies in Iowa. Implementation, training, and technical assistance for users continued through the fall of 2020.

For a victim of sexual abuse when the offender has been referred pursuant to Iowa Code chapter 229A, the date of the discovery of the crime shall be considered to be the date when the referral was made. The department may waive the requirements of Iowa Code section 915.84(1) if good cause is shown.

9.28(1) Application postmarked. An application postmarked within the prescribed time period shall be considered timely filed.

9.28(2) Good cause. In determining whether there is good cause for waiver of the two–year application-filing requirement, the victim’s age, physical condition, psychological state, cultural or linguistic barriers, and any compelling health or safety reasons that would jeopardize the well–being of the victim may be considered.

9.28(3) Multiple erroneous claims. When two or more applications are filed by or on behalf of an individual applicant during a calendar month and the applications appear on initial review to be erroneous claims based on innocent misrepresentation or circumstances of a similar nature, the claims shall be treated as a single application. Verification shall be investigated for each crime recorded in a file with multiple erroneous applications. If any of the crimes recorded in a combined application are verified as compensable crimes, the
applications for compensation for those crimes shall be separated from the combined file and assigned distinct application numbers. The department will notify the applicant whenever two or more applications have been combined as one application.

9.28(4) Program effective date. The effective date of the crime victim compensation program is January 1, 1983. Victims and survivors of crimes that were committed prior to the effective date may be eligible for compensation if the program can obtain sufficient documentation to verify eligibility.

9.28(5) Concurrent primary and secondary applications. A victim may be both a primary victim and a secondary victim in the same crime. The secondary victim application shall not be opened until a benefit has been exhausted for the primary application and there is documentation of need for further benefits in that category. The secondary victim application shall be considered timely filed if the primary victim application was timely filed.

9.28(6) Concurrent secondary victim applications. A victim may be a secondary victim to multiple primary victims in a crime. A subsequent secondary victim application shall not be opened until a benefit has been exhausted in the first secondary victim application and there is documentation of need for further benefits in that category. Subsequent secondary victim applications shall be considered timely filed if the primary victim application was timely filed.

61—9.29(915) Report to law enforcement. A person is not eligible for compensation unless the crime is reported to law enforcement pursuant to Iowa Code section 915.84(2). The department may waive the requirements of Iowa Code section 915.84(2) if good cause is shown.

9.29(1) Law enforcement report sources. The department finds there is good cause to accept that the report of a crime to any of the following is a report to law enforcement pursuant to Iowa Code section 915.84(2):

a. Sheriffs and their regular deputies.
b. Marshals and police officers of cities.
c. Peace officers of the department of public safety.

h. County and state prosecutors.
i. An employee of the department of human services having jurisdiction to investigate the incident.
j. A magistrate or judge of the Iowa court system.

a. The nature of the crime,
b. The location of the crime,
c. The name, whereabouts and description of the suspect, if known, and

d. The names of witnesses, if known.

9.29(3) Law enforcement record. A law enforcement trip record may satisfy the requirement that the crime be reported to law enforcement.

9.29(4) Good cause. In determining whether there is good cause for waiving the requirement to report a crime to law enforcement within 72 hours of the occurrence of the crime, the victim’s age, physical condition, psychological state, cultural or linguistic barriers, and any compelling health or safety reasons that would jeopardize the well-being of the victim may be considered. In the event good cause is found, the crime must be substantiated through disclosure to another provider including, but not limited to, a licensed medical provider, a licensed mental health professional, or a designated victim service provider.

9.29(5) Child victim. If the victim is a child as defined in Iowa Code section 232.2 and is reported to be a victim of child abuse, the department finds there is good cause to waive the 72-hour reporting requirement.

9.29(6) Dependent adult victim. If the victim is a dependent adult as defined in Iowa Code section 235B.2(4) and is reported to be a victim of dependent adult abuse, the department finds there is good cause to waive the 72-hour reporting requirement.

9.29(7) Sexual abuse victim. For a victim of sexual abuse, the 72-hour reporting requirement may be waived for good cause if a sexual abuse evidentiary examination was completed within 72 hours of the crime or if the crime was disclosed to another provider including, but not limited to, a licensed medical provider, a licensed mental health professional, or a designated victim service provider.

9.29(8) Domestic abuse victim. For a victim of domestic abuse, the 72-hour reporting requirement may be waived for good cause if a domestic abuse protective order pursuant to Iowa Code chapter 236 is entered by the court or if the crime was disclosed to another provider including, but not limited to, a licensed medical provider, a licensed mental health professional, or a designated victim service provider.

9.29(9) Victim of a sexually violent predator. For a victim of sexual abuse, the department finds good cause to waive the 72-hour reporting requirement when the offender is referred pursuant to Iowa Code chapter 239A.

61—9.30(915) Cooperation with law enforcement. To be eligible for compensation, the crime victim must cooperate with the reasonable requests of law enforcement. After considering the factors in subrule 9.29(4), the department may waive the requirement if good cause is shown.

9.30(1) Reasonable cooperation. Reasonable cooperation by the victim may include, but is not limited to, the following:

a. Providing law enforcement with a true and accurate report of the crime.

b. Participating in the investigation of the crime to assist law enforcement in the identification of a suspect as requested including the review of photographs, composites, and lineups.

c. Participating in prosecution procedures including deposition and trial testimony as requested.

9.30(2) Determination of cooperation. In determining whether a victim reasonably cooperated with law enforcement, the division may consider the victim’s age, physical condition, psychological state, cultural or linguistic barriers, and any compelling health or safety reasons that would jeopardize the well-being of the victim.

9.30(3) Polygraph testing. In determining whether a victim reasonably cooperated with law enforcement, the refusal of a victim to undergo a polygraph examination shall not be the basis of denial.
9.30(4) Sexual abuse victim. A victim of sexual abuse shall be deemed to have reasonably cooperated with law enforcement if the victim undergoes a sexual abuse evidentiary examination.

9.30(5) Domestic abuse victim. A victim of domestic abuse shall be deemed to have reasonably cooperated with law enforcement if a report of the crime was made to law enforcement.

61—9.31(915) Contributory conduct. The division shall reduce or disqualify compensation when there is a causal relationship between the contributory conduct on the part of the victim and the victim's injury or death. Contributory conduct includes consent, provocation, or incitement of the crime on the part of the victim.

9.31(1) Consent, provocation, and incitement. In assessing consent, provocation or incitement on the part of the victim pursuant to Iowa Code section 915.87(2)"a," the division may consider factors including, but not limited to, the following:

a. Whether charges are filed against the suspect;

b. Whether the victim attempted to withdraw from the incident;

c. Comparable or reasonable force on the part of the suspect in response to an action of the victim;

d. The amount of time from the beginning of the interaction between the victim and the suspect and the criminal act committed by the suspect;

e. The age of the victim; and

f. Comparable size or strength of the victim and suspect.

9.31(2) Additional assessment of consent. In assessing the causal nature of consent pursuant to Iowa Code section 915.87(2)"a," the division may consider factors including, the victim's age, physical condition, psychological state, cultural or linguistic barriers, and any compelling health or safety reasons that would jeopardize the well-being of the victim.

9.31(3) Consent in intoxicated driving cases. A victim who was the passenger in the vehicle of a driver who has been determined to have been legally intoxicated at the time of the crash shall not be automatically denied eligibility for compensation. The division may consider whether the victim could have reasonably known the intoxication level of the driver, the driver's behavior or judgment appeared impaired, the victim encouraged or discouraged the driver from driving, or the victim's judgment was impaired.

9.31(4) Additional assessment of provocation and incitement and commission of a criminal act. In assessing the causal nature of provocation or incitement and commission of criminal act pursuant to Iowa Code section 915.87(2) the division may consider law enforcement documentation that indicates:

a. Retaliatory action. The crime was committed as retaliation for a prior physical assault or injury committed by the victim against the perpetrator, and the victim could have reasonably foreseen the likelihood of retaliation.

b. Gang action. The crime was a direct result of gang activity, including gang initiation, or was inflicted as retaliation for prior gang activity in which the victim participated in a criminal street gang as defined in Iowa Code section 915.87(2).

c. Mutual combat. The crime was an incident of mutual combat if the victim:

(1) Initiated a physical altercation;

(2) Made a credible threat of bodily harm against the person, took action to indicate the intent to carry out the threat and a physical altercation immediately followed; or
(3) Accepted a verbal challenge to engage in a physical altercation, took action to indicate acceptance of the challenge and a physical altercation immediately followed.

d. Exception to mutual combat. Incitement and provocation are not present in an incident of mutual combat when a significant escalation of the fight, such as the introduction of a deadly weapon, is made by a person other than the victim or when a third party becomes involved resulting in more serious injury than the victim could have reasonably expected.

9.31(5) Victim’s criminal act. Contributory conduct includes assisting in, attempting, or committing a criminal act by the victim. A causal relationship must be documented between the injury or death for which compensation is sought and the criminal act of the victim.

61—9.32(915) Eligibility for compensation. The program shall determine the eligibility of an application for compensation.

9.32(1) Determination of eligibility. A denial of eligibility shall be based on written documentation that an application does not satisfy the requirements of Iowa Code chapter 915. An applicant shall be deemed eligible for compensation if the division has not obtained written documentation supporting a denial within six months of the date of the application. Notwithstanding the foregoing, the division may extend the determination of eligibility beyond six months if a court date or grand jury hearing is pending and is reasonably expected to result in information necessary to render an eligibility decision.

9.32(2) Reopening applications. Pursuant to Iowa Code section 915.83(2), the department may reopen and reinvestigate an application if the department determines that the decision was incorrect or incomplete. A denied application may be reopened and reinvestigated if it is discovered through a criminal trial or other investigatory source that the information relied upon for the denial decision was incorrect or incomplete. The eligibility of an approved application will be reopened for consideration if information is discovered through a criminal trial or other investigatory source that the information relied upon to make the decision was incorrect or incomplete. The reopening of a denied or approved case is at the discretion of the administrator for the compensation program, the director, or the board.

9.32(3) Withdrawal of application. An applicant may withdraw the application for compensation from consideration.

9.32(4) Maximum compensation. Compensation shall be reduced or disqualified to the extent that the maximum compensation allowable pursuant to Iowa Code chapter 915 and these rules has been awarded.

61—9.33(915) Emergency award of compensation. Emergency awards of compensation may be made if the applicant has incurred a loss of income or pecuniary loss as a direct result of the crime.

9.33(1) Preliminary eligibility determination. The program must determine that the application is likely to be eligible based on documentation available including, at minimum, the law enforcement verification form provided to law enforcement by the program.

9.33(2) Documentation. To make an emergency award of compensation, the program must have documentation of the lost wages or the pecuniary loss.

9.33(3) Emergency award decision. A decision denying an emergency award shall not be appealable.

9.33(4) Offset. Any emergency award shall be deducted from the final award of compensation made to the claimant.

61—9.34(915) Computation of compensation. The division shall determine the amount of compensation to be awarded to an eligible applicant.
9.34(1) **Benefit limits.** Compensation shall be made up to the benefit category limits in effect on the date the application is filed. For an eligible victim of sexual abuse when the offender has been referred pursuant to Iowa Code chapter 915, compensation shall be paid for expenses incurred after referral of the offender.

9.34(2) **Payer of last resort.** The program is a payer of last resort pursuant to federal law 34 U.S.C. 20102. Compensation shall not be paid for services when the provision for those services is mandated by law or administrative rule to be the responsibility of another governmental unit, private agency or program. Payments shall be reduced by payments made by offenders and third parties responsible for the damages of the crime. The department may waive this requirement for good cause after considering the factors in subrule 9.29(4), for compensation made from state funds.

9.34(3) **Voluntary financial programs.** Compensation applicants will be encouraged to apply for other financial assistance programs to pay costs resulting from the crime-related injury. However, no applicant will be denied compensation benefits based on the applicant's refusal to seek funds from a voluntary financial assistance program.

9.34(4) **Insurance providers.** Eligible victims and claimants must give service providers the information necessary to bill insurance providers for crime-related treatment. Payment of compensation will not be made if the victim refuses or fails to provide information requested by the service or insurance provider or to sign the required assignment of benefits within a reasonable time frame. The department may waive this requirement if the victim can demonstrate good cause exists. Good cause may include, but is not limited to, situations where the insurance policyholder is the perpetrator of the crime that gave rise to the claim.

9.34(5) **Supplanting of funds prohibited.** Compensation shall be made only when the claimant is responsible for the cost of crime-related injury. Compensation shall not be paid when a government entity, including but not limited to a mental health facility, jail, or prison, is responsible for the costs of treatment for injury from crime, unless the entity is legally allowed to pass those costs along to the victim.

61—9.35(915) **Computation of benefit categories.** The division shall determine the amount of compensation to be awarded to an eligible applicant for injury from crime for each benefit category pursuant to Iowa Code section 915.86.

9.35(1) **Medical care.** Compensation may be paid for the reasonable expenses of medical care provided to eligible crime victims by, or under the supervision of, a person licensed by the state under Iowa Code chapter 147, 148, 148A, 148E, 149, 150A, 151, 152C, or 153. When preexisting medical conditions are treated during crime-related medical care, the program may reduce payment to a percentage equal to the portion of the medical care determined to be directly related to the compensable crime. Medical care expenses include the following:

a. **Medical care sanctioned by sovereign nations and tribes.** Compensation may be paid for medical care rendered in accordance with a method of healing sanctioned by a state-recognized or federally recognized sovereign nation or tribe.

b. **Medical counseling costs.** Compensation may be paid for counseling provided under the direct supervision of a psychiatrist or other physician and shall be applied toward the medical benefit maximum.

c. **Medical care for homicide victim survivors.** Compensation may be paid to the spouse, child, parent, sibling, or person related by blood or affinity to a homicide victim for the same types of medical care which are allowable for primary victims, including but not limited to hospital and physician care, psychiatric care, prescriptions, and transportation expenses related to injury from the crime.

d. **Medical equipment and property alteration.** Compensation may be paid for equipment and property alteration, which are prescribed as medically necessary care due to injury from the crime.
e. **Medical supplies.** Compensation may be paid for medical care supplies and incidental supplies necessary for medical care due to injury from the crime.

f. **Medical care for pregnancy.** Compensation may be paid for medical care costs related to pregnancy resulting from the crime of sexual abuse. Eligible expenses for care of the victim shall be paid. Expenses incurred for care of a newborn child are not compensable.

g. **Medical devices.** Compensation may be paid for the replacement of a medical device including but not limited to a sight or hearing device, dentures, prosthetic device, wheelchair, and medication that was taken, lost or destroyed during the crime.

No waiver may be granted from a rule that defines a term. No waiver may be granted from a requirement that is imposed by statute. Any waiver must be consistent with statute.

9.37(2) *Criteria for discretionary waivers.* The board may grant a waiver from a rule, in whole or in part, in response to a request from an applicant or on the board’s own motion, as applied to a specific claim, if the board finds that:

a. The application of the rule to the claim at issue would result in hardship or injustice to the person seeking compensation; and

b. The waiver would be consistent with the public interest or the public interest will be protected by other means substantially equivalent to full compliance with the rule; and

c. The waiver in the specific case would not prejudice the substantial legal rights of any person.

9.37(3) *Board discretion.* The decision about whether the circumstances justify the granting of a waiver shall be made at the sole discretion of the board, upon consideration of all relevant factors.

9.37(4) *Criteria for mandatory waivers.* In response to an applicant’s request, the board shall grant a waiver from a rule, in whole or in part, as applied to the particular circumstances, if the board finds that the application of the rule in that specific case would not, to any extent, advance or serve any of the purposes of the rule.

9.37(5) *Administrative deadlines.* When the rule from which a waiver is sought establishes deadlines, the board shall balance the specific individual circumstances of the applicant with the overall goal of uniform treatment of all applicants.

9.37(6) *Conditions.* The board may condition the granting of a waiver on reasonable conditions to achieve the objectives of the particular rule in question through alternative means.

9.37(7) *Public availability of waiver decisions.* A board decision granting or denying a waiver shall be included in the board minutes with reference to the following:

a. The particular case and the rule or portion thereof to which the decision pertains;

b. The relevant facts and reasons upon which the action is based; and

9.37(8) *Voiding or cancellation.* A waiver is void if the material facts upon which the request is based are not true or if material facts have been withheld. The board may at any time cancel a waiver upon notice to the victim by regular mail and an opportunity to be heard, if:

a. The facts as stated in the request are not true or material facts have been withheld, or

b. The applicant has failed to comply with the conditions of the waiver.

9.37(9) *Effectiveness of waiver.* After the board issues a waiver, a person seeking compensation may rely on the terms of that waiver for the purposes of the particular case for which it was issued. A waiver shall only be effective in the case for which it is issued.
9.37(10) Appeals from waiver decisions. Any request for an appeal from a decision granting or denying a waiver shall be in accordance with the procedures provided in Iowa Code chapter 17A and the board’s rules. An appeal shall be taken within 30 days of the issuance of the waiver decision unless a contrary time is provided by rule or statute.

These rules are intended to implement Iowa Code sections 915.80 through 915.94.
